GEAR

Just as shoes can make the man, one special piece can lift a room. With that in mind, we've carefully collected a house's worth of perfect products.

SPECIAL SECTION

Upgrade Your Home

► **MODE RCC-1075 RECYCLING CENTER**

No need to keep three garbage bins in the kitchen corner. With the press of a pedal, this all-in-one recycling center crushes aluminum cans and plastic bottles into small pucks, optimizing its eight gallons of storage. Newsprint and junk mail slide into a five-gallon bin just below an LCD readout that reminds you of pickup days and keeps a running tally of how many pounds of trash you've recycled.
